Docket No. 98N-1265

Food and Drug Administration 1216 '99 APR -6 AIO:19

5600 Fishers Lane

Rockville, MD. 20857

10PPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: For years, the only progesterone I have been able to tolerate in my Hormone Replacement Therapy has been the compounded prescription that has only been offered by Madison Pharmacy Associates. If you limit all specialty pharmacies, I will probably have to stop HRT, which will be a detriment to my health because I have serious osteoporosis.

This is the only pharmacy in the nation for which I have been able to obtain my prescriptions. Limiting their number of Rx's mailed out of state would not only create a hardship for me, it would possibly permanently compromise my health.

98N-1265
